

Combined Test Beam with final VXD system in fall 2015

- Although the official schedule has not yet been released we will ask for a time slot at DESY in fall 2015 for a VXD test beam.
- Final sensors, ASICs and DAQ, CO₂ cooling plant, power supplies, monitoring, and a full SlowControl system.
 - *À la* DESY in January but with final systems in a year time
- In 2014, only standalone test beams are foreseen
