

Final Symposium of the Sino-German GDT Cooperation

Monday, 19 October 2015

Physics with Germanium (14:00 - 17:30)

| time | [id] title | presenter |
|-------|--|---------------------|
| 14:00 | [8] Ge detectors and neutrinoless double beta decay: Majorana Demonstrator | Dr MARTIN, Ryan |
| 14:30 | [9] Ge detectors and neutrinoless double beta decay: GERDA | Dr MAJOROVITS, Bela |
| 15:00 | [10] Ge and dark matter searches: CDEX, present and future, Ge detectors at LN temperature | Dr LIN, Shin-Ted |
| 15:30 | [11] Ge detectors at ultra-low temperature | Dr EITEL, Klaus |
| 16:00 | Coffee | |
| 16:30 | [70] Ge and physics in spectroscopy: AGATA and overview | Prof. REITER, Peter |
| 17:00 | [13] Ge and neutrino scattering: Texono and overview | Prof. WONG, Henry |
