

## Recent developments in Monte-Carlo Event Generators

*Tuesday, 6 October 2015 14:20 (25 minutes)*

With Run II of the LHC having started, the need for high precision theory predictions whose uncertainty matches that of the data to be taken necessitated a range of new developments in Monte-Carlo Event Generators. In this talk I will give an overview of the progress in recent years in the field and what can and cannot be expected from these newly written tools.
