

XLV International Symposium on Multiparticle Dynamics

Thursday, 8 October 2015

Status of QCD (09:00 - 13:05)

-Conveners: Nora Brambilla; Guenther Dissertori

time	[id] title	presenter
09:00	[15] Deconfinement and Equation of State in QCD	PETRECZKY, Peter
09:25	[105] Heavy quark masses from lattice QCD.	Dr LYTLE, Andrew
09:50	[67] Recent results on hadron structure observables using lattice QCD simulations	CONSTANTIA, Alexandrou
10:15	[50] Parton distribution functions and the structure of the proton: the CT14 QCD global analysis	Dr GUZZI, Marco
10:40	Coffee Break	
11:00	[126] Theory status of jet physics	Prof. HOANG, Andre
11:25	[104] Overview of QCD measurements at high pT	WEBER, Matthias
11:50	[16] Determination of alpha_s from the QCD static energy	VAIRO, Antonio
12:15	[127] The 2015 World Summary of alpha_s	Prof. BETHKE, S.
