

# XLV International Symposium on Multiparticle Dynamics

## Thursday, 8 October 2015

### Proton Structure from ep and pp (14:00 - 17:35)

-Conveners: Ingo Schienbein

time	[id] title	presenter
14:00	[61] Photon and photon+jet production measurements with the ATLAS detector	Prof. GLASMAN, Claudia
14:20	[0] Combination of Measurements of Inclusive Deep Inelastic ep Scattering Cross Sections and QCD Analysis of HERA data	Dr ABT, Iris
14:45	[84] PDF constraints and $\alpha_s$ from CMS	Dr GOUZEVITCH, Maxime
15:10	[56] Studies of ATLAS measurements sensitive to the Proton Structure	Dr BUSSEY, Peter
15:35	Coffee Break	
16:05	[113] HERAFitter project and its related studies	PIRUMOV, Hayk
16:25	[106] Recent progress in PDF set combinations for the LHC	Dr BUCKLEY, Andy
16:45	[1] Combination of D* Differential Cross-Section Measurements in Deep-Inelastic ep Scattering at HERA	GEISER, Achim
17:05	[27] Measurement of the Collins asymmetries for kaons and pions in e+e- annihilation at BABAR	FILIPPI, Alessandra
