

The Future of Research on Cosmic Gamma Rays

Friday, 28 August 2015

Future experiments (14:00 - 18:30)

-Conveners: Mario Pimenta

time	[id] title	presenter
14:00	[15] The Cherenkov Telescope Array	Dr KNÖDLSEDER, Jurgen
14:30	[16] Galactic physics with CTA	Dr CHAVES, Ryan
15:00	[17] Extragalactic physics with CTA	Dr BROWN, Anthony
15:30	[18] Fundamental physics (dark matter searches in particular) with CTA	Dr ZECHLIN, Hannes
16:00	Coffee break	
16:30	[19] LHAASO	Dr SIMEONE, Francesco
17:00	[20] LATTES - A New Gamma Detector at High Altitude in South America	Dr SHELLARD, Ronald
17:30	[21] MACHETE: a transit Imaging Atmospheric Cherenkov Telescope to survey half of the VHE gamma ray sky	Dr CORTINA, Juan
18:00	[36] X-ray polarimetry: a new diagnostic tool for gamma-ray emitters	Dr COSTA, Enrico
