

# PXD Slow-Control Task Sharing

Michael Ritzert

[michael.ritzert@ziti.uni-heidelberg.de](mailto:michael.ritzert@ziti.uni-heidelberg.de)

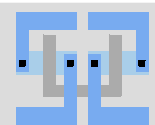

9<sup>th</sup> VXD Belle II Workshop

Valencia

14.01.2016

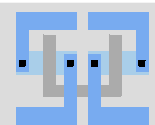

# Introduction

- Granted funding for SC related work way below request.
- ⇒ shortage of manpower
- Obviously, The work load is not reduced...
  
- So far the approach to develop IOCs together with the hardware has worked remarkably well. If possible, we should stick to it.
- „Responsible“ institute means not the one doing **all** the work, but the one overseeing the development.

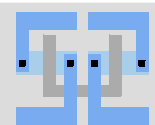

# EPICS Drivers (IOCs)

Task	Responsible Institute	Remarks
DATCON		
DHE, ASICs (JTAG)		
FOS		
IBBelle
