

11th European Symposium on Semiconductor Detectors

Wednesday, 10 June 2009

Read-Out Electronics - Main Auditorium (11:40 - 13:20)

time	[id] title	presenter
11:40	[12] Development of a low-noise ASIC for SDD-based x-ray spectrometers	DE GERONIMO, Gianluigi
12:00	[13] Read-out Electronics for DEPFET Pixel Detectors at SuperBelle	KRÜGER, Hans
12:20	[14] High-speed multi-channel readout of X-ray CCD using analog ASIC	NAKAJIMA, Hiroshi
12:40	[15] 130nm CMOS Mixed Signal Readout ASIC of the DEPFET Sensor with Signal Compression for the European XFEL	FISCHER, Peter
13:00	[16] Experimental results on ASTEROID and VELA: two 64 channel ASICs for the readout of DEPFET arrays for X-ray astronomy	DE VITA, Giulio
