

11th European Symposium on Semiconductor Detectors

Tuesday, 9 June 2009

SDD - Main Auditorium (09:00 - 10:40)

time	[id] title	presenter
09:00	[22] Multi-Linear Silicon Drift Detectors: 2D detector response mapping and electron cloud profiling	CASTOLDI, Andrea
09:20	[23] New Detector Architectures for X-ray Spectroscopy based on Silicon Drift Detectors with integrated FET	NICULAE, Adrian
09:40	[24] Development of arrays of Silicon Drift Detectors for extraterrestrial X-Ray Spectrometer	REHAK, Pavel
10:00	[25] New Developments of SiPMs	NINKOVIC, Jelena
10:20	[26] Advances in CMOS Solid-state Photomultipliers for Scintillation Detector Application	CHRISTIAN, James Francis
