

# Hot Topics in Particle and Astroparticle Physics 2004

## Thursday, 28 October 2004

### Morning (08:00 - 14:00)

time	[id] title	presenter
08:00	Breakfast	
09:00	[12] HadCalc - A Program for the Calculation of Hadronic Cross Sections	MICHAEL RAUCH
09:05	[13] <b>Lecture</b> Modern Detectors II - Silicon Detectors for High Energy and Astrophysics Experiments	LACI ANDRICEK
09:10	[14] First WIMP-Limits from the CRESST Dark Matter Search with Scintillating Modules	FEDERICA PETRICCA
09:15	[15] Deformed Spaces and Symmetries	FRANK MEYER
09:20	[16] Alignment of the ATLAS Inner Detector	ROLAND HÄRTEL
10:30	Coffee Break	
12:30	Lunch
