

2nd Block Course: Physics at Hadron Colliders

Friday, 17 February 2006

Lecture - Main Auditorium (09:00 - 17:30)

time	[id] title	presenter
09:00	[11] Top Physics (Theory: SM properties, top production, spin correlations, W-polarisation)	PETER UWER
10:30	Coffee Break	
11:00	[12] Higgs searches at the LHC	TILMAN PLEHN
14:00	[13] CP Violation and Rare Decays of B and K Mesons in the Standard Model and Beyond I	ANDRZEJ BURAS
