

Hadronic Calibration Workshop

Thursday, 4 May 2006

From Local Hadronic Calibration to Jets and Emiss (16:30 - 18:00)

time	[id] title	presenter
16:30	[7] Use of hadronic calorimeter calibration	
	- [1] Refined jet calibration strategies	AMBREESH GUPTA
	- [2] Missing E_{t} calculations using refined calibrations	SILVIA RESCONI
	- [3] Progress and status of the numeric weighting approach	ELIN BERGEAAS
17:15	[8] Jet composition and characteristics	
	- [1] Jet composition and effect on calibration	MARK HODGKINSON
	- [2] Tagging electromagnetic content of jets	ROLF SEUSTER
17:45	[6] Observations and discussions	PETER LOCH
	- [1] Goals for Barcelona and first collisions	
	- [2] Feedback to calorimeter group
