

IMPRS Colloquium

Report of Contributions

Contribution ID: 1

Type: **not specified**

Kalman filter for gas detectors

Thursday, 25 February 2021 14:00 (30 minutes)

Presenter: KLIMPEL , Fabian

Session Classification: ATLAS Physics

Contribution ID: 2

Type: **not specified**

Diboson resonance searches in the vector boson fusion production mode with the ATLAS detector

Thursday, 25 February 2021 14:30 (30 minutes)

Presenter: MASCHEK, Stefan

Session Classification: ATLAS Physics

Contribution ID: 3

Type: **not specified**

Direct detection of non-galactic light dark matter

Thursday, 25 February 2021 15:20 (30 minutes)

Presenter: HERRERA MORENO, Gonzalo

Session Classification: DM/CRESST Physics

Contribution ID: 4

Type: **not specified**

Data Analysis in CRESST

Thursday, 25 February 2021 15:50 (30 minutes)

Presenter: FUCHS, Dominik

Session Classification: DM/CRESST Physics

Contribution ID: 5

Type: **not specified**

Entropic Force

Thursday, 25 February 2021 16:40 (30 minutes)

Presenter: EISENMANN, Lukas

Session Classification: Particle Cosmology Theory

Contribution ID: 6

Type: **not specified**

Black Hole Memory Burden

Thursday, 25 February 2021 17:10 (30 minutes)

Presenter: MICHEL , Marco

Session Classification: Particle Cosmology Theory
